Hale Wins Recognition for Hobby on Presidents

Learns Intimate Details of Lives; Display Attracts Widespread Attention.

By BOB BYRD

Nearly a lifetime of study of the Presidents of the United States has won for Earl N. Hale, general secretary of the Y. M. C. A. wide recognition for his collection of presidential photographs and other mementoes and has given him an insight into the lives of the nation's chief executives that includes knowledge of hundreds of interesting bits of information the casual student of history has never heard.

Recognition for his extensive study of the Presidents and articles connected with them has come to Mr. Hale only in recent months. His collection of photographs has been on display almost constantly since last year in metropolitan store windows throughout the country, and Mr. Hale is filling numerous speaking engagements to relate interesting things hitherto not disclosed about lives of Presidents. The display now is in Los Angeles, Calif.

Mr. Hale's study is extending beyond the scope of the lives of the Presidents. He is now gathering photographs of wives of Presidents, and is hopeful of obtaining soon a photograph of Mrs. Arthur, one of two wives of Presidents whose photographs have been thought to be non-existent.

Excerpts from Study

Sample excerpts from Mr. Hale's files regarding lives of Presidents and the office itself follow.

William Henry Harrison, at 68, was the oldest President to take office. He gave the longest inaugural speech and served the shortest period of any President, holding office only a month. His wife, though living, never saw him while he was President and never lived in the White House, having planned to join him there later.

John Adams reached the greatest age, nearly 91, of any man who served as President. The average *age of Presidents* when inaugurated is 54.4 years. The average length of their lives after taking office has been 13.3 years.

George Washington was the only president elected unanimously by the electoral college. He was so chosen for both terms. Monroe, in 1820, would have received a unanimous vote for his second term had it not been that one member of the electoral college from New Hampshire refused to vote for him because he didn't want the selection to be unanimous. He explained that honor should be reserved for Washington.

Daniel Webster, conceded to be one of the most brilliant men in public affairs in the country's his-

tory, worked 20 years for the presidency, never reaching the goal although practically he had two opportunities which, if taken, would have placed him in the presidential office. The other came in 1840.

CANTON WOMAN KILLED IN HOME

Wife of Prominent Contractor Shot from Window; Male Relative Arrested.

HAD VISITED HER HOME

Kin's Shoes Match Prints Found at Spot Where Fatal Shot Was Fired.

By The Associated Press

CANTON, O., March 12—A mad night shotgun blast through a kitchen window in her pretentious home killed Mrs. Rose Cable, 47, wife of a prominent contractor and police held a 36-year-old male relative on an open charge.

The relative had left 10 minutes before the shooting after a four-hour visit with Mrs. Cable and her mother, Mrs. Pauline Beiter, 70. Police Chief Ira Manderbaugh said.

The woman's husband, Decker S. Cable, 48, general manager of the Cable Construction Co., was notified at Cleveland, where he has is executive of the $1,000,000 sign mill being constructed for the Republic Steel Corp.

Chief Manderbaugh said the relative's shoes matched prints found in snow outside the window, from which a single charge was fired, lodging in Mrs. Cable's neck.

Mrs. Cable walked to the breakfast room to take a cigaret from a window sill and place it on the table and Mrs. Beiter followed. She had just stepped out of the room and as Mrs. Cable turned to return to the living room, the blast was fired, the police said.

The chief said he could find no motive in the slaying, and said Mrs. Cable, who was born in Zanesville, O., in Tuscarawas county was an active church worker.

The relative, Chief Manderbaugh said, claimed he boarded a bus near the home in an exclusive section of Canton and went directly to his room, where he was taken into custody.

Mrs. Cable was the contractor's second wife. His daughter, Jane, 20, is a sophomore at Heidelberg college in Tiffin, and his son, Robert, who is a student at Gulfcoast, Fla.

SPORTSMEN GATHER AT LARUE TONIGHT

Club Will Hold Banquet and Hear Three Prominent Speakers at School.

Sportsmen from Marion and nearby counties will gather at LaRue tonight for the annual banquet of the LaRue Sportsmen's club where three men outstanding in their respective fields will share the speaking program.

The dinner will be served in LaRue high school at 7 p. m. and the program will follow, Cyril T. Guthery, president, has announced.

The club's annual banquets are attended by hundreds of sports followers each year, and usually a group of officials of the state division of conservation are among the guests.

On tonight's program are Earl Hanefeld, state director of agriculture, Boss Johnson of Aurora, Ind. in charge of radio station WLW sports and farm programs, and Arthur B. Fuller of Cleveland, chief preparator of the Cleveland museum of natural history, who will bring motion pictures made on one of the numerous expeditions he has led to obtain specimens for the museum. The films will include views taken during a 2,000-mile trip along the Nile river.

The school gymnasium will be opened to the public following the dinner in order that those unable to attend the dinner but wishing to hear the program may do so.

BOARD TO MAP WPA AND RELIEF PLANS

Commissioners Confer With Works Program and Direct Aid Officials.

After conferring all afternoon yesterday with district and county WPA officials and with County Relief Director John Abel, county commissioners said they will have a course of action mapped out in both fields within the next few days. Their meeting with WPA officials was informal and concerned plans for starting a county-wide road improvement project which has already been approved.

The general relief problems of the county, including the recent report of state relief commission examiners which charged lack of proper investigation of relief clients, were discussed with Mr. Abel. Commissioners did not disclose the nature of the discussion but said they will have an announcement concerning the matter shortly.

WPA officials told the county they wished to get the road project under way as soon as possible in order to supply work for men who have been temporarily laid off or for those working on other projects nearing completion.

The road project, details of which have not been mapped, would involve improvement on berm, drainage and surface of county highways.

Commissioners said no decision has been reached concerning the proposed improvement of Dunbar crossing in Pleasant township. They met with township officials, County Engineer Carl H. Tozzer and his deputy, Guy Stoltz, at the crossing earlier this week to see what is required. Township school officials requested the county to relocate the road so that it will not cross the Chesapeake & Ohio tracks at such a sharp incline.

Plans submitted by Mr. Tozzer contemplate moving the road back from the tracks, which it now parallels on either side, and construction of a gradual incline. Railroad representatives who were supposed to have met with commissioners at the site did not appear, due to a misunderstanding of the time of the conference.

COURT CHANGE SUPPORTED BY BAR GUILD HEAD

Labeled "Most Conservative Remedy" To Make "Needed Legislation Possible."

ASSOCIATION OPPOSED

Members Stand 16,132 to 2,563 Against Reorganization of Supreme Tribunal.

By The Associated Press

WASHINGTON, March 12—Judge John P. Devaney, president of the Lawyers National Guild, a group which favored enactment of President Roosevelt's court bill, labeled the most conservative remedy available to make possible needed legislation, how unconstitutional it is considered.

Devaney, who resigned last month as chief justice of the Nevada supreme court, appeared before the senate judiciary committee at the third day of hearings on the President's judiciary reorganization proposals.

Large Crowd at Hearing

Another large crowd was attracted to the spacious caucus room in the senate office building. It was, however, not as large as previous days when Attorney General Cummings and Assistant Attorney General Robert H. Jackson appeared in behalf of Mr. Roosevelt's plan.

Devaney reached Washington to testify before the committee just as the American Bar association announced by mail votes stood 16,132 to 2,563 against supreme court packing.

A poll of the Bar Association, the officials announced, also showed opposition to increasing the number of judges in lower federal courts, by a vote of 11,401 to 4,919.

A majority favored, however, the President's proposals for a supreme court justice for transferring lower court judges, and for speeding up action on constitutional questions.

Say Court Behind Times

The National Lawyers guild, on the other hand, declared when it was organized last month as a rival to the Bar association:

"The supreme court has fallen behind the needs of the times, blocked progress and is now out of step with the urgent social and economic demands of the people."

Devaney said South W. Brook-

Steps Taken To Protect Family Against Rabies

Pasteur Treatment Given After Capture of Dog Thought To Be Mad.

County health officials today began the 14-day Pasteur treatment for rabies in a family of six near Green Camp after discovering what they believe may be the first mad dog discovered in the county in twelve years. The dog died Wednesday night after an illness of several days and showed signs of infection with the dread disease, County Health Commissioner N. Sifritt said.

The family is that of O. L. Burchfield of west of Green Camp. It includes Mr. and Mrs. Burchfield and three children, aged 1, 3 and 6, and a brother, Okie Burchfield.

Youth's Death Linked to Rabies

By The Associated Press

COLUMBUS, O., March 12—Dr. E. H. Horton of Ohio State university said today the death of Richard Sallee, 12, was caused by rabies and police instituted a week's round-up of stray dogs.

Reports of mad dogs have flooded the city since 15 school children reported themselves bitten. Health authorities ordered all dogs locked up.

JUDGE ACTS ON SILICOSIS SUITS

Defendants' Demurrers Sustained in Six Cases Brought in Common Pleas Court.

ALL WILL BE APPEALED

Effort To Have Disease Included on Compensation List To Be Continued.

Common Pleas Judge Hector A. Young has ruled on six separate cases begun in the court contesting demurrers of compliance against which the suits were based on the grounds the petitions do not state facts sufficient to constitute a cause of action and that the court has no jurisdiction on the subject of the action.

Although six cases were thus decided, the journal entry carefully recording the decision has been prepared and filed only in one of them, the case of Frances Parlow against The Marion Steam Shovel Co. Attorneys are expected to prepare and submit orders in the other cases to the court within a few days.

Paul D. Smith and Dr. T. H. Sutherland, representing the persons bringing the actions, said this morning they plan to carry the cases to the Third district court of appeals in a continuation of their efforts to have silicosis included in the list of occupational diseases for which state compensation is allowed.

Ohio, they said, is the only one of 44 states having industrial compensation acts in which silicosis is excluded.

They said the decision last year of the United States supreme court in the case of Charles Mudrey of Marion, holding to establish his rights to get compensation for silicosis, does not touch the cases they will follow in carrying up the other cases.

The attorneys said the cases in which the judge ruled were brought by Parlow and Delphia Reiter, as administratrix of the estate of Milton D. Reiter, both against The Marion Steam Shovel Co., and those of Robert T. Dotts and Mary Brammer, Mary A. Brammer, his wife, and the Brammer children against the Alloy Cast Steel Co. and the Ohio Oil Co.

Silicosis, the disease involved in the suits, is caused by the inhaling of particles of dust, fine particles of metals and abrasives.

NEUTRALITY DEBATE STARTS IN HOUSE

Peace Measure Taken Up After Passage of Mine Regulation Bill.

By The Associated Press

WASHINGTON, March 12—The house took up neutrality legislation today after approving without a record vote a bill to regulate the $11,000,000,000 soft coal industry.

The coal measure, permitting government price fixing, was similar to the Guffey control bill invalidated by the supreme court. Labor provisions to which the tribunal had objected however, were omitted. The bill now goes to the senate.

The McReynolds neutrality bill, which the house agreed to debate for 10 hours, was submitted by its foreign relations committee for one passed by the senate.

Chairman McReynolds, Democrat of Tennessee, of the committee, advocated giving the President broader discretionary power in dealing with exports of war materials to belligerent nations.

MILD WINTER NULLIFIES TRAFFIC SAFETY DRIVES

Deaths on Highways So Far This Year Exceed Previous Record; Cuyahoga County Toll 51 in 70 Days.

By The Associated Press

COLUMBUS, O., March 12—An "open" winter bade fair today to defeat strenuous police drives aimed at reducing traffic fatalities in Ohio.

Reports showed traffic deaths so far this year exceeded those for the comparable period of last year in all of Ohio's major population centers.

Deaths for the first 70 days of 1937 reached 51 in Cuyahoga county, most densely settled portion of the state, compared with only 22 last year.

Safety Director Eliot Ness has named a city traffic committee to investigate the cause of the increase and said he planned to establish a police "school" later for study of latest control [illegible]

Davey Wants Laws Enacted To Permit Local Subdivisions To Levy Taxes.

By The Associated Press

COLUMBUS, O., March 12—The "crash" [illegible] for a hasty legislative assault on the Ohio relief problem appropriated today, heralded by Gov. Martin L. Davey's mention of the [illegible] relief crisis of its [illegible] duty.

Need for "quick money" to [illegible] matching, if that part of the plan is adopted, brought from Gov. Davey a plea for passage of bills to allow counties and cities to levy new taxes.

TOWNSEND SENTENCE 30 DAYS AND $100

Bond Continued Pending Appeal; "Can't Imprison That Idea," Says Defendant.

By The Associated Press

WASHINGTON, March 12—Dr. Francis E. Townsend was sentenced to one month in jail and $100 fine today for contempt of the house of representatives.

Townsend's bond of $1,000 was continued pending an appeal.

The old-age pension leader's conviction resulted from his sudden departure from a house committee last summer. In the midst of question on his pension organization, jammed on his hat and stalked from the committee room.

When sentence was pronounced by U. S. District Judge Peyton Gordon, the tall gray Californian said "thank you, sir." His attorney announced the case would be appealed.

Later Townsend hailed a statement to the press defending his pension plan and saying "try as they can to imprison me, they can't imprison that idea."

Large Part of Pit Wrecked by Terrific Explosion; Bodies Carried by Hand.

FIVE VICTIMS IDENTIFIED

Others Are Expected To Be Brought Up to Top of Shaft Before Nightfall.

By The Associated Press

LUCAS, W. Va., March 12—Workers searching what had been the bottom of the mine from the explosion centered Mr. Hellis mine early today that afternoon they had located 13 others.

H. P. Farley, directing the rescue operations for the state department of mines, said 16 apparently had been located by [illegible] for dead.

The rescue crews, working frantically after a sudden blast wrecked a large part of the pit [illegible] and one-half miles from the entrance, had to carry the bodies more than a half mile by hand, then two miles on cars.

Five Identified

Five of the victims were definitely identified.

They [illegible] Fred McCoy, 35, brakeman, Floyd Riddle, [illegible] and section boss, Mike Gingo, 44, and Leonard Forbes, 30, [illegible].

Farley said he expected all of the 16 bodies located will be brought to the surface by night.

Farley, describing the scene in the pit, said:

"Around the center of the blast the mine is badly torn. We are finding the bodies scattered in many places. Most of the victims apparently were killed outright by the explosion."

Body Brought Up

The second body of Floyd Riddle, 30-year-old section boss was brought to the surface at 8:30 a. m. He had gone to work in the mine only three days before. He had a wife and three children.

A grimy rescue worker came to the surface with the body.

The blast in the mine operated by the Hutchinson Coal Co. eight miles over a rugged road east of Logan, occurred shortly after 8 o'clock last night.

The bodies of Joe Fry, motorman, and Troy McCoy, [illegible], were discovered before midnight.

Mine inspectors said the explosion was ignited in a section about a mile and a half from the [illegible] of the 840 foot slope which runs down from the mine mouth.

It took 40 hours to recover the bodies of 10 men killed in the explosion there last September.

C. H. Pullen, state trooper on duty at the mine, asserted: "There could not possibly be anybody alive behind the piles of slate and debris."

Company officials said between 40 and 45 men were in the mine at the time of the explosion.

The two who escaped were John Bildner and George Matthews; both were burned.

Gilbert Kennedy, 55, *motorman*, and Harry Cummins, 39, his assistant were coming out with loaded *cars and had reached the main entry* when the explosion occurred, Cummins said:

"It lasted for about 30 seconds. It blew coal and pieces of slate on the top of the car right in front of my face."

He said he and Kennedy turned back into the main entry to try to find their fellow workers.

Cause of the explosion had not been determined, but N. P. Hilbuhart, chief of the state department of mines, said it apparently had started from a collection of gas.

Jefferson Most Versatile

Three Die, Three Assassinated

Andrew Johnson, the most unmade stand President was the only one who never attended school, and John Quincy Adams are the only Presidents who went to congress after serving as president.

Harding was connected one of the most handsome, being a member of the handsome group with Fillmore, Pierce and Polk. Andrew Jackson was the most picturesque. Chester A. Arthur was probably the best dressed President. Taft the most lovable.

Cleveland probably seized more sets of cufflinks than any other President. He rolling under his pet. Most of them were confiscated with pleasure.

The most sensational presidential election took place in 1876 with Samuel Tilden, New York governor, and Rutherford B. Hayes, Ohio governor, as rivals. Not until 4 p. m. on March 2, two days before the inauguration, was the outcome determined. Hayes received 185 electoral votes, Tilden 184.

Wilson, regarded by many as one of the outstanding Presidents, certainly slipped into office twice, once when Theodore Roosevelt's Bull Moose ticket split the Republican vote and again when Charles Evans Hughes, now chief justice of the United States supreme court, lost California by 1,000 votes, a loss that many political observers believed could have been averted by overtures to make peace with a single prominent Californian.

T. R. Youngest

Theodore Roosevelt was the youngest President to take office, having been inaugurated when 42. Five others were under 50 years of age. Grant at 46, Cleveland at 47, Pierce at 48, Polk at 49 and Garfield at 49.

Cleveland, elected in 1884, defeated for reelection in 1888 and elected again in 1892, is the only President to serve separated terms.

As a result Franklin D. Roosevelt is the third several President yet the twelfth man to hold the office.

Cleveland was one of two bachelors who went to the White House. He was married in the White House, and holds the distinction of being the only President to be married there. Other Presidents, Tyler and Wilson, were married while in office, but not in the White House. Cleveland also is the only President to become a father while in the White House.

Grant is the only President to ask for a third term.

Women may be nominated for the presidency and two have been. One was Victoria Woodhull, a native of Ohio, O. nominated by the Equal Rights party in 1872. The other was Mrs. Belva Lockwood, nominated for the same party in 1880 and 1884.

The President is the only federal employe who doesn't have to sign a receipt for his pay check.

He is immune from arrest, but that didn't prevent a traffic officer from taking President Grant to task for fast driving. He gave Grant a court summons, not recognizing him, and Grant congratulated him, promising to appear the next day to answer the charge. History, however, does not record that he appeared.

The President can not be forced to testify in court.

Interest Started Early

The germ of interest that Mr. Hale holds responsible for his lifelong study of Presidents was a book given him by his father on the lives of the Presidents. Mr. Hale said he intensified his study when he moved to Marion nine years ago.

Daily Pattern for Home Use

BY ANNE ADAMS

BE FIRST TO MAKE THIS FROCK WITH FLATTERING BOLERO JACKET

These days—when you can't stay indoors a minute! Almost every moment calls for a sparkling frock like this to step you up and keep you looking best on all occasions! Just a fashion-wise little jacket, a bolero of course (you'll see them everywhere this season), and instead of the half-dozen sashes it requires you may accent your dress bodice with a crisp gros-grain bow. As for the frock itself have you ever seen such chic? The pointed waist yoke that may be worn with or without the narrow belt, wide-at-the-shoulder sleeves that may puff or flare, and last but not least, the graceful flare of the trim skirt.

Pattern 4343 is available in sizes 14, 16 and 20. Size 16 dress requires 3¼ yards 39 inch fabric; ½ yard contrast. Illustrated step-by-step sewing instructions included.

Send Fifteen Cents (15c) in coins or stamps (coins preferred) for this Anne Adams pattern. Write plainly size Name, Address and Style Number.

A smart wardrobe—Yours! Order our Spring Anne Adams Pattern Book and see how easy it is to make becoming, up-to-minute outfits quickly and inexpensively at home! Revel in a wide choice of sparkling all-occasion frocks, suits, blouses — with special slimming styles for the stouter woman. Practical, fashion-right models for kiddies and "dolls" too! Fabric tips. Book Fifteen Cents. Pattern Fifteen Cents. Twenty-five Cents for both when ordered together.

Send your order to The Marion Star, Pattern Department, 243 W. 17th St., New York, N. Y.

The Stars Say—

For Saturday, March 13.

"EVERY DAY, although not necessarily one, is the message from the predominant stellar influences. Radical changes imminent and new undertakings follow fragment of old conditions. Matters of old institutions may figure there. Private affairs likely lively and gratifying.

One whose birthday it is may have a year of radical changes in many new influences and ideas. New projects may be undertaken with safety and success because the cooperation of persons or institutions important on. Domestic and romantic affinities positive.

Child born on this day may be surprising, energetic, steady, quite steadfast and resolute. Could win the support of

LEAVES CLINIC

CHANGE ANNOUNCED IN DRIVERS' TESTS

Highway Patrolmen To Handle Examinations Formerly Made by City Police.

City police after tomorrow will discontinue handling the examinations of motorists living in the city who hold temporary drivers permits, Police Chief Marks announced today. Since the drivers' license law became effective last November the department has examined approximately 300 Marion drivers who sought to obtain permanent driving licenses, Chief Marks said.

Because of the small number of drivers remaining in the city who have not taken the tests, it has become unnecessary to devote the full-time services of a member of the department to handling the examinations, Chief Marks said. City drivers who wish to take the examination hereafter will be handled by state highway patrolmen who conduct tests here once each month. Formerly the patrolmen tested only those Marion county residents living outside the city.

The patrolmen will come here Monday to conduct the monthly examination at the city police headquarters. On their regular schedule the patrolmen visit Marion the third Monday of each month. Temporary permit holders, police said, at present must have a licensed driver accompany them. Those whose temporary permits, issued for a 20-day period, expire before they have an opportunity to take the examination are requested to obtain a second temporary permit and attach it to the first one, they explained.
